## Para aplicar la llave de activación (Feature key) usando WSM:

1. Copie la llave de activación (feature key) texto desde la pagina web referenciada en el paso 14
2. Seleccionar **Setup** => **Licensed Features**. Una pantalla presentara las llaves activadas en el Firebox.
3. Para adicionar la nueva llave, clic **Add**.
4. La pantalla **Add/Import License Keys** se presentara.
5. Pegar la llave de activacion (feature key) en el espacio disponible. Separe llaves adicionales con la tecla retorno (return). Para importar múltiples llaves, clic **Browse**. Localice un archivo de texto que contiene una lista delimitada con las llaves. Seleccionar el archivo y dar clic en **Open**.
6. Cuando complete la incorporación de la llaves, clic **OK**. Las llaves se presentaran en el dialogo de Feature key organizado por tipo.

## Para aplicar la llave de activación (Feature key) para un appliance Firebox X Edge:

1. Copie la llave de activación (feature key) texto desde la pagina web referenciada en el paso 14
2. Con su web browser, navegar hasta la página **System Status** de su Firebox X Edge utilizando la dirección IP de confianza del appliance.

Por ejemplo, Si esta utilizando la dirección IP por defecto, ir a: <https://192.168.111.1>

3. Seleccionar **Administration** => **Upgrade** desde la barra de navegación en la izquierda.
4. La pagina de **Upgrade** aparecerá
5. Pegar la llave de activación (feature key) en el espacio disponible
6. Clic **Submit**
