

## **WatchGuard Announces Summer Security Sale for SMBs**

*Promotion offers up to 25% off the latest XTM Firewalls and XCS Messaging Security Appliances*

14 July 2010: WatchGuard® Technologies has launched the WatchGuard Summer Security Sale to give small to medium sized businesses the latest in network security and web protection at substantially discounted prices.

“Hackers, viruses and malware are no longer just enterprise problems,” said Mark Romano, Director of Field Marketing at WatchGuard Technologies. “Small to medium sized businesses are the most vulnerable to next generation threats. Because of this, we created the WatchGuard Summer Security Sale as a way to help SMBs stay ahead of the latest hacks, attacks and malware threats.”

For a limited time only, customers will be offered discounts of up to 25 percent off of the latest WatchGuard XTM 5 and XTM 8 Series next generation firewalls as well as WatchGuard XCS 370, 570, and 770 Series messaging security and data loss prevention appliances.

World renowned for their bright-red appearance, WatchGuard XTM Series represents the latest in multi-layered, defence-in-depth next generation firewall capabilities. Ideal for small businesses up to enterprise organisations, WatchGuard XTM solutions provide unparalleled network, application and data protection, superior management features and capabilities along with the industry’s best price/performance value.

The WatchGuard XTM 5 Series delivers best in class security performance to small and medium sized businesses that need strong protection without hefty price tags. Enterprise-grade security capabilities include full HTTPS content inspection and VoIP support, as well as flexible management tools to give SMBs a sure-fire way to keep their networks safe. Seven Ethernet interfaces – six GigE and one FE – provide high-speed LAN backbone infrastructure and gigabit WAN connectivity, and IT

administrators can manage the appliances from a centralised console, scriptable CLI, and web UI. Real-time monitoring and rich reporting are included at no extra cost.

WatchGuard XCS appliances deliver the industry's most effective spam and malware security coupled with data loss prevention. Easy-to-use, WatchGuard XCS solutions offer unmatched protection against email and web-based threats, including spam, viruses, malware, blended threats, spyware and more. Additionally, WatchGuard XCS appliances provide advanced data loss prevention (DLP), encryption and management features that make it ideal for small businesses up to the most demanding enterprise network environments.
