WatchGuard® XCS

Release Notes for WatchGuard XCS v9.1 TLS Hotfix

WatchGuard XCS Build: 110328
Release Notes Revision Date: April 1, 2011

Overview

This hotfix release resolves a potential command injection vulnerability in the TLS over SMTP implementation. This vulnerability is described in CERT Vulnerability Note VU#555316. [60420]

Download Software

If Security Connection is enabled, this update will be downloaded automatically to your XCS device. The update is not automatically installed. You must manually install software updates on the Software Updates page.

See the **Install the Software Update** section below for detailed instructions.

To download the software manually:

1. Go to the LiveSecurity web site's Software Downloads page at
    http://www.watchguard.com/archive/softwarecenter.asp

2. Log in to the LiveSecurity web site. Then, select the product line you use and look for the WatchGuard XCS software download section.

3. Select and download the WatchGuard® XCS 9.1 TLS Hotfix software. The file is called `xcs91_tls_hotfix.pf`.

Install the Software Update

We recommend you back up your current WatchGuard XCS configuration and data before you install this software update.

Backup the WatchGuard XCS Configuration

1. Select **Administration > Backup/Restore > Backup and Restore**.

2. Select your backup method (**FTP**, **SCP**, or **Local Disk**), then click **Next**.

3. Select which information to back up. If you do not want to restore reporting data, clear the **Backup reporting db data** check box. We recommend you select all options.
    For the **FTP** and **SCP** methods, enter your server information.

4. Click **Next** to confirm your selections.

5. Click **Create backup now**.

Install the Software Update

1. Select **Administration > Software Update > Updates**.

2. If you use Security Connection, the software update already appears in the **Available Updates** section.

   If you manually downloaded your software update:

   - Click **Browse** and select the software update.

   - Click **Upload**.

3. In the **Available Updates** section, select the software update.

4. Click **Install**.

5. After you install the software update, you must restart the device.

Technical Assistance

For technical assistance, contact WatchGuard® Technical Support by telephone or on the Web at http://www.watchguard.com/support. When you contact Technical Support, you must supply your registered Product Serial Number, LiveSecurity key or Partner ID.
